

THE STAR OF ENERGY SAVINGS

PANORAMIC

EXPANDED VIEW SERIES VINYL WINDOWS

PREMIUM QUALITY, MAXIMUM VIEW

PANORAMIC

Anlin Panoramic windows expand your view of the beautiful outdoors, invite more light into your home and offer a modern, slim look. As an Anlin premium series, Panoramic windows offer the features, quality and value that homeowners desire.

*Reveals more glass ...
and expands the view*

Energy Saving Technology

Anlin Panoramic windows are designed and built for optimum performance using the latest energy saving technology, providing maximum savings in any climate.

Exceptional Styling and Quality

The features, components and craftsmanship that are designed and built into Anlin Panoramic windows will make you feel great about your home. It's quality that even increases resale value.

A Superior Warranty

Anlin Panoramic windows are backed by the most inclusive lifetime warranty in the industry. The following are covered free of charge to you:

- | | |
|--------------------------------------|--------------------------------|
| Parts, including all hardware | Exterior Vinyl Coatings |
| Vinyl | Screens |
| Insulated Glass Unit | Labor |
| Accidental Glass Breakage | Freight |

A Select Dealer Network

To ensure your satisfaction, Anlin Panoramic windows are only sold and installed by a limited number of authorized dealers who have been trained and certified by Anlin.

BETTER PERFORMANCE IS DESIGNED INTO EVERY FEATURE.

LEADING FEATURES

Saving Energy

- ▶ Thicker vinyl and more inner chambers help reduce the flow of heat and cold through the frame.

- ▶ Next Generation high performance glazing system delivers unparalleled energy efficiency.

QUADRA THERM™
ULTIMATE DUAL PANE INSULATION SYSTEM

INFINIT-e PLUS™
HIGH PERFORMANCE GLAZING SYSTEM

- ▶ Triple fin weatherstrip creates a better weather-tight seal that blocks more wind, dirt, moisture and sound.

Smooth Operation and Easy-Clean Glass

- ▶ Sliding windows are supported by 4 Celcon rollers and 4 extra large stainless steel axles for a lifetime of smooth operation.

Sliding Window Rollers

- ▶ Anlin Panoramic windows built with the Infinitt-e Plus™ insulated glass units come standard with an easy-clean coating on the outside of the glass. This feature makes the outside windows easier to clean and helps them stay cleaner longer.

With easy-clean coating | *Without easy-clean coating*

- ▶ Single hung windows features sashes that tilt in for easy cleaning of the outside glass and a stainless steel constant force balance system that ensures easy, smooth operation.

Tilt-in Feature

Window Balance System

Appearance and Value

- ▶ The corners of Anlin Panoramic frames are precision mitered at 45 degrees, welded and cleaned by computer controlled technology. Every corner then receives a trained craftsman who completes a touch-up by hand for an exceptional smooth finish.

- ▶ Frames and sashes with matching beveled accents create a more polished, sleek and sophisticated look.

- ▶ Anlin Panoramic screens have mitered corners to match the frames. The built-in pull rail provides easy removal.

- ▶ All lock hardware is securely attached to metal reinforcement hidden inside the vinyl.

- ▶ Designed with security as a top priority, a continuous interlocking rail in conjunction with Anlin's window locks prevent "jimmying" the lock from the outside.

- ▶ Optional 1/4" stainless steel sash dead bolt provides added security on sliding windows.

SAVING ENERGY

SPENDING LESS ON ENERGY LETS YOU SPEND MORE ON THE THINGS YOU LOVE.

Two things can send energy bills skyward: heat passing from one side of your window to the other; and solar heat sneaking into your home via the greenhouse effect on hot, sunny days. All energy efficient windows try to reduce one or both of these energy-sapping effects. For homeowners looking to replace their windows, there are two essential performance measurements to consider. The first is U-Factor, and the second is Solar Heat Gain Coefficient (SHGC).

U-Factor is the name for the standard measurement of a window's resistance to heat being transferred through the window. The lower the number, the greater the insulation capability of the window.

Solar Heat Gain Coefficient (SHGC) is the name for the standard measurement of a window's ability to keep solar heat from passing through the glass and warming your home via the greenhouse effect. The lower the number, the greater the job the window does of rejecting solar heat gain.

Energy Ratings for Anlin Panoramic Windows

As an example, here are the thermal performance numbers for Anlin Panoramic single slider windows. (For both U-Factor and SHGC, the smaller the number, the more energy efficient the window.)

For extreme heat or sun exposure, such as the Arizona desert or any elevation exposed to the scorching sun, SunShield Extreme (solar reflective tinted blue/gray coating) offers the best protection.

Anlin Panoramic Thermal Performance Numbers

Window & Insulated Glass System	Total Unit U-Factor	Solar Heat Gain Coefficient (SHGC)
Next Gen INFINIT-E  PLUS  with Argon Gas	0.27	0.23
Next Gen QUADRA THERM ™ with Argon Gas	0.23	0.22
Next Gen SunShield ™  EXTREME with Argon Gas	0.28	0.15

All Anlin Infit-e Plus and QuadraTherm insulated glass systems have been tested to block the transmittance of ultraviolet (UV) light by 95%. You will find the U-Factor, SHGC and UV numbers for every Anlin window at anlin.com.

Panoramic Windows Include Anlin's Next Generation Glazing System

- 1** **AnlinArmor™** – From manufacturing and delivery, to jobsite through installation, Homeowners are guaranteed to receive their new windows in pristine condition.
- 2** **INFINIT-E™ Triple-Layer Silver Coating** – Reflects and substantially reduces the amount of solar heat entering the home, from a hot summer sun.
- 3** **PLUS™ Easy Clean Coating** – A permanent exterior coating that harnesses the sun's UV rays to break down dirt, keeping your windows cleaner longer.
- 4** **Platinum Elite™, Next Generation Spacer** – Known as Aviation alloy, Platinum Elite's patented 2-piece, laser welded corrugated design, is the most advanced, thermally efficient, commercial rated warm edge spacer in the industry.
- 5** **True Dual Seal** – An engineered thermoplastic moisture vapor barrier (black), fused with a commercial rated 2-part structural silicone (gray), assures lifetime durability.
- 6** **Moisture Stop** – Advanced Silica drying agent continuously extracts any moisture vapor from within the unit.
- 7** **Argon Gas** – An invisible layer of insulation slows the transfer of heat through the Insulated glass, increasing thermal efficiency up to 15%. (Optional in Infit-e Plus, Included in QuadraTherm)
- 8** **QuadraTherm™** – Multi-layer heat retention coating helps keep more warmth inside your home on cold days and nights. (Optional Upgrade)

WITH ANLIN PANORAMIC WINDOWS THE CHOICE IS YOURS

Lock Options

Both lock types available on Anlin Panoramic windows pass the stringent forced entry test.

► Pull-Tight Cam Lock

(Available in White, Tan, Adobe, Bronze, Brushed Nickel, and Polished Brass.)

Pull the window sashes together for a weather tight seal.

Bronze
(Optional)

Brushed Nickel
(Optional)

Polished Brass
(Optional)

► True Action Lock

This optional system automatically locks when the sash is closed. Available in White, Tan, Adobe, Bronze, Brushed Nickel, and Polished Brass.

The Perfect Companion

Companion products have a 3 1/4" frame depth to accommodate the function of its operating styles and can be combined with any Anlin Panoramic window.

Bay and bow windows make a home special. They practically bring the outdoors right inside, so rooms feel larger and lighter.

Garden windows offer a popular way to brighten a kitchen or bathroom, opening the room to more sunlight and providing a perfect shelf for plants and décor.

Additional Options

► Sound Package

Many homeowners add Anlin Panoramic's optional sound package with sound suppression technology. In addition to saving energy, the sound package greatly reduces the transmission of noise from the outside of your home to the inside, making your home even quieter. You may choose to add the sound package to windows throughout your home, or to windows facing a street or other sources of noise.

► SunShield Extreme™

The ultimate technology for combating extreme solar heat, blue-gray tinted triple silver coating is engineered to reflect the sun where it beats the hottest. Whether it's the searing sun of the Arizona desert or anywhere west facing windows are exposed to a scorching afternoon sun, SunShield Extreme™ dramatically reduces solar heat and lowers cooling costs.

► Safety / Tempered Glass

All Anlin replacement windows can be ordered with optional tempered glass, which may reduce the potential for serious injury when broken.

5-Star Service

We've always believed that how we stand behind our products is every bit as important as how we build them. Should your Anlin windows or patio doors ever need service, Anlin has its own team of highly trained technicians and a fleet of service vehicles to ensure a great experience. From the first phone call to the completed repair, you'll appreciate Anlin's commitment to your satisfaction.

Recognized for Manufacturing Excellence

Since Anlin Windows & Doors was founded in 1990, we've continually invested in leading edge product design, technology and manufacturing practices. As a result, we've been recognized as a Top 100 U.S. Manufacturer by Window & Door Magazine and have been selected as the Industrial Business of the Year by the U.S. House of Representatives and Small Business of the Year by Congress and the California State Legislature.

“ From the way we build your windows and patio doors to the way we stand behind them – we look forward to creating an exceptional experience. ”

We encourage you to visit online review and opinion sites, such as YELP and others, to learn why so many homeowners give Anlin a 5-Star rating for our products and service.

All Anlin windows and doors are AAMA and NFRC certified, and ENERGY STAR qualified.
